LAKSHYA VASHISHTHA

Jaipur, India | 9799650995 | demoniclakshya@gmail.com | GitHub: github.com/lakshyaHacks

PROFILE

B.Tech Computer Science student at JK Lakshmipat University with hands-on practice building full-stack web applications using React, Node.js, Express, and MongoDB. Interested in backend development, APIs, databases, and solving programming problems.

EDUCATION

B.Tech in Computer Science and Engineering | JK Lakshmipat University, Jaipur
Expected graduation: 2028 | Reported CGPA: 8.268/10 (through Semester 4)

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, SQL
Frontend: React, Vite, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, REST APIs, JWT authentication
Databases & Tools: MongoDB, MySQL, Redis, Git/GitHub, Docker, Postman, VS Code, WSL

PROJECTS

Nexus Portfolio — MERN Stack

Tech: React, Vite, Tailwind CSS, Node.js, Express, MongoDB

- Built and deployed a responsive personal portfolio with project showcase, skills, timeline, certificates, and dark/light theme.
- Implemented backend resume-download and contact-form APIs with validation and MongoDB persistence.
- Deployed the frontend on Vercel and backend on Render.

LeetCode-Style Coding Platform (Backend)

Tech: Node.js, Express, MongoDB, Redis, JWT

- Developed backend features for user authentication and coding-problem management.
- Worked with JWT-based authentication, password hashing, token blocklisting, and API testing.
- Integrated code-execution API workflows for running solutions against test cases.

Food Delivery & Ride-Hailing UI Clones

Tech: React, JavaScript, Tailwind CSS, APIs

- Practiced building multi-page interfaces inspired by food-delivery and ride-hailing applications.
- Worked with API data fetching, component-based UI, and frontend routing.

Travelling Salesperson Problem — Metaheuristics

Tech: Python, Discrete Grey Wolf Optimizer, DPSO, DCS

- Implemented and compared discrete metaheuristic algorithms for TSP benchmark datasets.
- Experimented with population sizes, iteration counts, runtime comparisons, and 2-opt local search.

ADDITIONAL

- Practiced backend development, authentication, API integration, database operations, and deployment workflows.
- Academic project work includes algorithm implementation, benchmark testing, and comparative runtime analysis.
